- Additional: 48.1% had issues with food contact surfaces not properly sanitized.

Chinese Cuisine

- Top Risk: 57.7% of establishments failed to maintain non-food contact surfaces properly.
- Other Concern: 49.7% were not free of rodent or insect infestation risks.

Latin American Cuisine

- Top Risk: 55.3% failed on non-food contact surface maintenance.
- Other Concern: 47.9% had conditions conducive to pests.

Caribbean Cuisine

- Top Risk: 53.1% of establishments were not free of conditions conducive to rodents, insects, or other pests.

Recommended Investment Opportunities – Food Establishments

Based on inspection data and risk analysis, we recommend considering investment in the following locations and cuisines, where operational standards appear manageable and growth potential is promising:

Recommendation Highlights:

01

Diverse Cuisine Options:

Investments span Chinese, American, Caribbean, and Latin American cuisines to capture varied market demand.

02

Strategic Borough Selection:

Focus on Queens, Brooklyn, and Manhattan to leverage high foot traffic and established dining markets.

03

Operational Considerations:

Prioritize sites with better sanitation compliance to minimize inspection risks and ensure smoother operations.

Borough	District	Cuisine
Brooklyn	43.0	Chinese
Brooklyn	41.0	Caribbean
Brooklyn	33.0	American
Manhattan	3.0	American
Manhattan	4.0	American
Manhattan	6.0	American
Queens	20.0	Chinese
Queens	31.0	Caribbean
Queens	21.0	Latin American
